## Working Paper No. 734

### Keep in mind

The series Working Papers on Economics is published by the Office for Economic Studies at the *Banco de la República* (Central Bank of Colombia). It contributes to the dissemination and promotion of the work by researchers from the institution. This series is indexed at Research Papers in Economics (RePEc).

On multiple occasions, these works have been the result of collaborative work with individuals from other national or international institutions. The works published are provisional, and their authors are fully responsible for the opinions expressed in them, as well as for possible mistakes. The opinions expressed herein are those of the authors and do not necessarily reflect the views of Banco de la República or its Board of Directors.

### AUTHOR OR EDITOR

[Ana María Iregui Jesús Otero](#)

Publication Date:  
Wednesday, 26 of September 2012

This paper studies whether the geographical separation of markets constitutes a factor that hinders firms in costs. A vector autoregression explains special price dynamics due to shocks from the localities, thus confirming that price adjustments take longer for markets farther apart.
