

Keep in mind

The series Working Papers on Economics is published by the Office for Economic Studies at the *Banco de la República* (Central Bank of *Colombia*). It contributes to the dissemination and promotion of the work by researchers from the institution. This series is indexed at Research Papers in Economics (RePEc).

On multiple occasions, these works have been the result of collaborative work with individuals from other national or international institutions. The works published are provisional, and their authors are fully responsible for the opinions expressed in them, as well as for possible mistakes. The opinions expressed herein are those of the authors and do not necessarily reflect the views of Banco de la República or its Board of Directors.

AUTHOR OR EDITOR

[Daniel Vela](#)

This document explores the predictive power of the yield curves in Latin America (Colombia, Mexico and Brazil). Finally, the success of the cross-variable interaction strongly depends on the selected yield

The opinions and statements are the sole responsibility of the author and do not necessarily represent neither those of the Banco de la República nor of its Board of Directors. Any remaining errors are my own.
