

Keep in mind

The series Working Papers on Economics is published by the Office for Economic Studies at the *Banco de la República* (Central Bank of *Colombia*). It contributes to the dissemination and promotion of the work by researchers from the institution. This series is indexed at Research Papers in Economics (RePEc).

On multiple occasions, these works have been the result of collaborative work with individuals from other national or international institutions. The works published are provisional, and their authors are fully responsible for the opinions expressed in them, as well as for possible mistakes. The opinions expressed herein are those of the authors and do not necessarily reflect the views of Banco de la República or its Board of Directors.

AUTHOR OR EDITOR

[Carlos León](#)

A maximum likelihood method for estimating the power law exponent verifies that the positive and negative order book imbalances in the Colombian market are self-organized systems, a gradually truncated Levy flight, and suggest that local financial markets are self-organized systems, a gradually truncated Levy flight, and
