
Wage Dynamics Post–COVID-19 and Wage-Price Spiral Risks

Activities schedule

- Will be conducted in English.
- Organized by Fedesarrollo and Banco de la República (central bank of Colombia)

Alexandre Balduino Sollaci is an economist at the World Economic Outlook division at the Research Department in the IMF. He also has experience as a desk economist, where he covered real sector and fiscal issues for Vietnam and Cambodia, respectively. Before joining the IMF, he obtained his PhD in Economics from the University of Chicago.
